- Grid storage power systems
- Rowed Varsity lightweight crew after walking on as a novice

Logos are the trademarked property of the respective companies, do not imply any endorsement of Hyperion or the Fund, and are not representative of all prior investments. MOICs and IRRs are net of fees and expenses. Valuation inputs for MOIC calculations include valuation caps on latest convertible note or SAFE rounds. Current Quantinuum valuation is based on recent secondary transaction in March 2025 but note that the last institutional equity financing round occurred in February 2024 at a \$5.3 billion post-money valuation. Normal Computing investment is a share award (given in lieu of direct investment) with current value marked at the total award value and cost marked at the Seed valuation. Furthermore, certain investments were made prior to Hyperion's individual capacity and are thus not comparable to future fund investments. Refer to the Valuation and Performance Definitions for additional important information regarding performance. Past performance is not necessarily indicative of future results.

General Partner bio (2/2)

- At Vista Equity Partners, Dillon helped **deploy \$1.0+ billion across 15+ deals**, primarily via Series C+ growth investments in enterprise SaaS businesses. Dillon also **spearheaded AI research and strategy** for his team from '23 - '25.
- At Firmament, Dillon helped execute enterprise SaaS buyouts and scale businesses via organic growth and M&A (culminating in **two exits to publicly traded companies**) while also **building out their venture arm from scratch**.
